

PRODUCT OVERVIEW · BUILT FOR CHURCH LEADERS

Your church has years of sermons. Put them to work.

Connect your YouTube channel and your whole archive becomes usable — answers grounded in your church’s own teaching, each linking to the exact moment in the sermon.

SERMON SERIES

LETTERS OF JOHN

Part 1

14:25

When Worry Won't Let Go

Video · Pastor John · 24.05.2026

ONE QUESTION

THE CHURCH

Why does

31:08

Calm in the Chaos

Video · Pastor John · 06.02.2024

A

I found several moments where your church teaches about anxiety. Want a short summary of what it teaches?

Yes, tell me more ›

WHY IT MATTERS

Your members are already asking. The only question is **who answers.**

When your teaching isn't findable, your people don't stop asking — they just ask somewhere else.

Without it — the answer comes from the internet

- Members ask ChatGPT the questions you should be answering
- Visitors Google your doctrine and read a stranger's version of it
- Ten years of faithful teaching sits buried, unsearchable
- Staff lose hours each week hunting through your own archive

With AskOurChurch — the answer comes from your pulpit

- Members ask anything and get an answer grounded in your teaching, with the source
- Visitors discover what your church actually teaches before Sunday
- Every sermon you've preached becomes a 24/7 first contact
- When the archive can't answer, it says so — it never invents

THE DIFFERENCE

Search gives you links. Your church should give you **an answer.**

A website search bar returns a list of pages and hopes the visitor digs. Your assistant returns the answer — grounded in your church's own teaching.

A NORMAL SITE SEARCH

YOUR CHURCH'S ASSISTANT

Your church teaches that we don't manage anxiety by pretending it isn't there — we bring it into the light, and a fear named in prayer loses its grip.

"Be anxious for nothing..."

PHILIPPIANS 4:6 · WEB

HOW IT WORKS

Three steps. No IT team. **No manual uploads.**

From signup to a live, answering page — usually the same day, with your first answers in minutes.

1

Paste your channel

Add your YouTube URL and pick what to index — services, videos, playlists or shorts. Email only, no credit card.

2

We index your teaching

We transcribe and understand every message, tag it by topic and match Scripture — automatically, in the background.

3

Your page goes live

A public page at askourchurch.com/your-church starts answering from the sermons indexed so far.

YOUR PUBLIC PAGE • FULLY AUTOMATIC

A home for your teaching **that answers questions.**

Every church gets a clean public page — searchable by anyone, no login required. Members and visitors ask in plain language and get a real answer, grounded only in what your church has taught. **This is where most churches start — nothing to set up.**

✓ **Yours, at your own link**

Path-based and shareable: askourchurch.com/your-church. Put it in the bulletin, the bio link, and every follow-up email.

✓ **Live immediately**

The page starts working from the sermons indexed so far and keeps getting richer as your archive finishes.

How does our church understand grace?

↑

BROWSE BY TOPIC

Prayer

Grace

Anxiety

Forgiveness

Marriage

Salvation

Suffering

Doubt

Parenting

Grief & loss

Answers, not guesses — with the receipts.

Every answer is synthesized from what your church actually taught — then backed by the proof: the Scripture referenced and the exact sermon moment.

✓ **A verse callout, every time**

Answers carry the Scripture your teaching leaned on, cited cleanly (WEB / KJV — public domain).

✓ **Timestamped sermon clips**

“Play at 10:34” jumps to the moment in the original video — so the answer always points back to the source.

✓ **Grounded in your teaching**

The wording is the assistant’s, but the substance is always yours — never the open internet.

GROUNDING IN YOUR TEACHING

Your church returns to one idea often: forgiveness is a decision we make before it’s a feeling we have — and it frees the one who offers it first.

“Be kind to one another, tenderhearted, forgiving...”

EPHESIANS 4:32 • WEB

The Weight We Put Down

▶ Play at 10:34

CHAT ASSISTANT

Ask a follow-up. **Keep the conversation going.**

Your assistant doesn't just return one answer — it holds a conversation, and it stays inside your church's teaching.

Conversational, not a search box

Members can go deeper: "What about when it feels impossible?" — and get a grounded reply that carries the thread.

Grounded only in your content

100% from your church's own teaching. It doesn't borrow doctrine from the open internet.

Honest about its limits

When your archive hasn't covered something, it says so plainly — it never invents an answer or a verse.

Not a generic chatbot. It's your church's assistant — drawing only on your teaching, and clear when it doesn't know.

ON YOUR OWN WEBSITE · OPTIONAL

Or drop it into the site **you already have.**

Prefer to keep everything on your own domain? Add your assistant to your existing website with a single embed — a short code snippet, no rebuild, no migration.

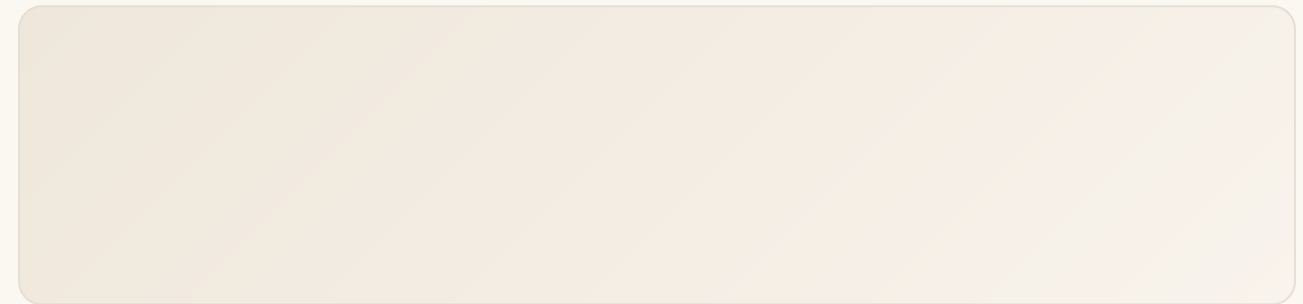

✓ **Two ways to embed**

A launcher button that opens your public page, or a full in-page assistant that answers right where visitors are.

✓ **Works with what you run today**

WordPress, Squarespace, Wix or a custom site — if you can paste a snippet, you can add it.

yourchurch.org

Ask about anything our church teaches...

SET IT AND FORGET IT

Preach on Sunday. **Answering by Monday.**

Your archive is never “done” — and neither is your assistant. New messages flow in automatically, so what you preached this week is findable next week.

✓ **Weekly auto-sync**

New YouTube uploads are picked up, transcribed and added on their own. No one on staff has to remember.

✓ **No manual uploads**

You already publish to YouTube. That's the only place your team has to keep doing what it's doing.

✓ **Nothing to maintain**

Hosting, transcription, indexing and Scripture matching all run for you. There's no server to babysit.

• **Live** 312 videos · 100 indexed on trial · last synced 2 days ago — the status is always visible, so you know exactly what's live.

When one channel **isn't the whole story.**

Multi-site churches, multiple languages and content beyond video — the Growth plan opens up when your ministry needs more.

✓ **Up to 3 channels**

Give each campus, ministry or language its own indexed channel and its own widget.

✓ **Documents & website**

Add PDFs, DOCX and pages from your site so more than sermons can answer.

✓ **Custom branding**

Make the public page and widget feel unmistakably like your church.

✓ **Multi-language answers**

Meet a diverse congregation where they are, in the language they ask in.

TRUST & SAFETY

Doctrine is sensitive. **We treat it that way.**

The fastest way to lose a congregation's trust is to put words in the pulpit's mouth. AskOurChurch is built so that never happens.

✓ **Only your content**

Answers are grounded in your church's own teaching — never the open internet.

✓ **It never invents**

No answer, no verse, no clip unless it's actually in your archive. When it can't, it says so.

✓ **Public-domain Scripture**

Verse callouts use WEB and KJV — cleanly licensed, quoted accurately.

✓ **Clear AI disclosure**

Members always know they're talking to your church's assistant, not a person.

✓ **You stay in control**

Choose what to surface and manage what's live from a simple dashboard.

✓ **Your teaching stays yours**

Your content is never used to answer for any other church.

WHO BUILT THIS

Built for our own ministry first — not for a market.

We needed our own teaching to be findable for the work we do. So we built the engine, proved it, and then opened it to other churches. For Christians, by Christians.

✓ The ministry behind it

DeoLink — a Christian association serving the church since 1975. AskOurChurch exists to serve ministry, not to chase a trend.

✓ The knowledge engine

Compendi — the technology that reads, understands and indexes your teaching, proven on real archives before it reached you.

✓ Built for your church

AskOurChurch — the page and assistant your members and visitors actually use, answering from your teaching.

PRICING

Friendly pricing for churches of every size.

Start free for 15 days — no credit card, no setup fees, no contracts. Transparent from day one.

Free

Try it on your own content, no card.

WHAT'S INCLUDED

Everything you need to go live — **nothing to wire up.**

✓ **Hosting included**

Reliable hosting for your public page and assistant — no server to manage.

✓ **Automatic transcription**

Every message is transcribed and indexed for you, in the background.

✓ **Scripture matching**

Answers carry the verse your teaching leaned on, cited cleanly.

✓ **Topic tagging**

Your archive is organized by theme so people can browse as well as ask.

✓ **Timestamped clips**

Every answer links back to the exact moment in the original video.

✓ **Live status**

Always-visible indexing status so you know what's answering.

✓ **Simple dashboard**

Manage your channel, page and settings from one place.

✓ **Embeddable widget**

Add search or the chat assistant to your own site with a short snippet.

✓ **Cancel anytime**

No contracts, no setup fees. Transparent from day one.

15 DAYS FREE • LIVE THE SAME DAY • CANCEL ANYTIME • EMAIL ONLY, NO CREDIT CARD

Paste your channel. Your church starts answering.

Your public page goes live automatically, answering from your own teaching — with a link to the exact moment in every sermon. Email only. No credit card.
