

Product overview Built for church leaders

Your church has years of sermons.

Put them to work.

Connect your YouTube channel and, within a day, every message your church has ever preached becomes searchable — answered in your pastor's own words, with the verse and the moment it was said.

 What does our church teach about anxiety?

IN YOUR PASTOR'S VOICE

Our church teaches that anxiety isn't a failure of faith — it's an invitation to bring what worries you into prayer, honestly and specifically. Peace isn't the absence of trouble, but the presence of God in it.

"Casting all your care upon him; for he careth for you."

WHY IT MATTERS

Your members are already asking. The only question is who answers.

When your teaching isn't findable, your people don't stop asking — they just ask somewhere else.

WITHOUT IT

The answer comes from the internet

- Members ask ChatGPT the questions you should be answering
- Visitors Google your doctrine and read a stranger's version of it
- Ten years of faithful teaching sits buried, unsearchable
- Staff lose hours each week hunting through your own archive

WITH ASKOURCHURCH

The answer comes from your pulpit

- + Members get an answer in your pastor's own words, with the citation
- + Visitors discover what your church actually teaches before Sunday
- + Every sermon becomes a first point of contact, answering day and night
- + When the archive can't answer, it says so — it never invents

THE DIFFERENCE

Search gives you links. Your church should give you an answer.

A website search bar returns a list of pages and hopes the visitor digs. Your assistant returns the answer — in the words your pastor actually used.

YOUR CHURCH'S ASSISTANT

"We don't manage anxiety by pretending it isn't there. We bring it into the light — a fear named in prayer loses its grip."

"Be anxious for nothing..."

HOW IT WORKS

Three steps. No IT team. No manual uploads.

From signup to a live, answering page — usually the same day.

1

Paste your channel

Add your YouTube URL and pick what to index — services, videos, playlists, or shorts. Email only, no credit card.

2

We index your teaching

We transcribe and understand every message, tag it by topic, and match Scripture — automatically, in the background.

3

Your page goes live

A public page at **askourchurch.com/your-church** starts answering from the sermons indexed so far.

YOUR PUBLIC PAGE

A home for your teaching that answers questions.

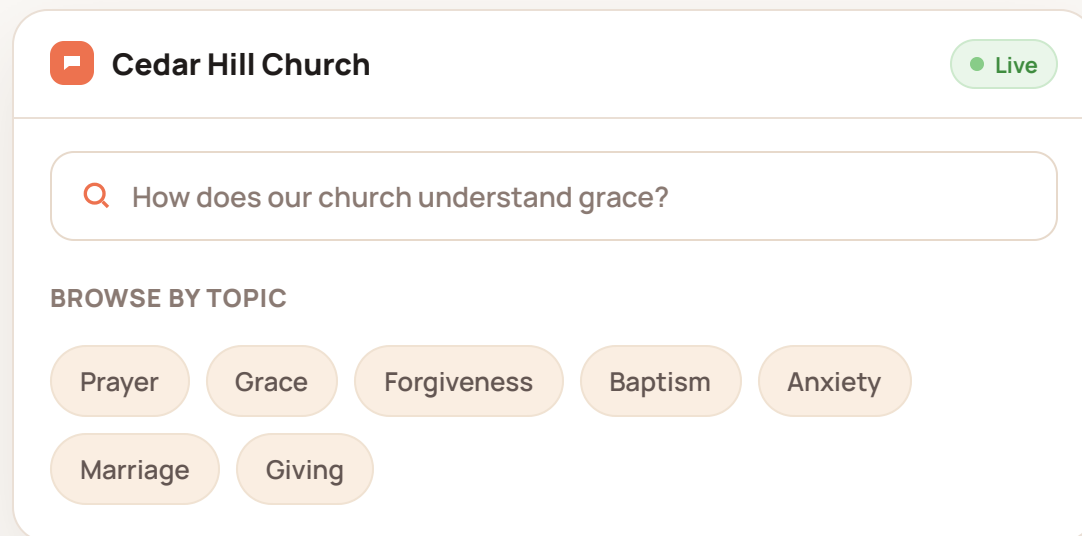

Every church gets a clean public page — searchable by anyone, no login required. Members and visitors ask in plain language and get a real answer, grounded only in what your church has taught.

Yours, at your own link.

Path-based and shareable: askourchurch.com/your-church. Put it in the bulletin, the bio link, and every follow-up email.

Live immediately.

The page starts working from the sermons indexed so far and keeps getting richer as your archive finishes processing.

ANSWERS, NOT GUESSES

In your pastor's own words — with the receipts.

Every answer is synthesized from what was actually preached, then backed by the proof: the Scripture referenced and the exact sermon moment it was said.

A verse callout, every time.

Answers carry the Scripture your teaching leaned on, cited cleanly (WEB / KJV — public domain).

Timestamped sermon clips.

"Play at 10:34" jumps to the moment in the original video — so the answer always points back to the source.

IN YOUR PASTOR'S VOICE

I found several moments where Pastor Mark speaks about forgiveness. He returns to one idea often: forgiveness is a decision we make before it's a feeling we have — and it frees the one who offers it first.

"Be kind to one another, tenderhearted, forgiving one another..."

THE ASSISTANT

Ask a follow-up. Keep the conversation going.

Your assistant doesn't just return one answer — it holds a conversation, the way a member would talk to a pastor. And it stays inside your church's teaching.

Conversational, not a search box.

Members can go deeper: "What about when it feels impossible?" — and get a grounded, in-voice reply that carries the thread.

Grounded only in your content.

100% from your church's own teaching. It doesn't borrow doctrine from the open internet.

Honest about its limits.

When your archive hasn't covered something, it says so plainly — it never invents an answer or a verse.

 **Not a generic chatbot.** It's your church's assistant — trained on your pulpit, speaking with your voice, and clear when it doesn't know.

ON YOUR OWN WEBSITE

Drop it into the site you already have.

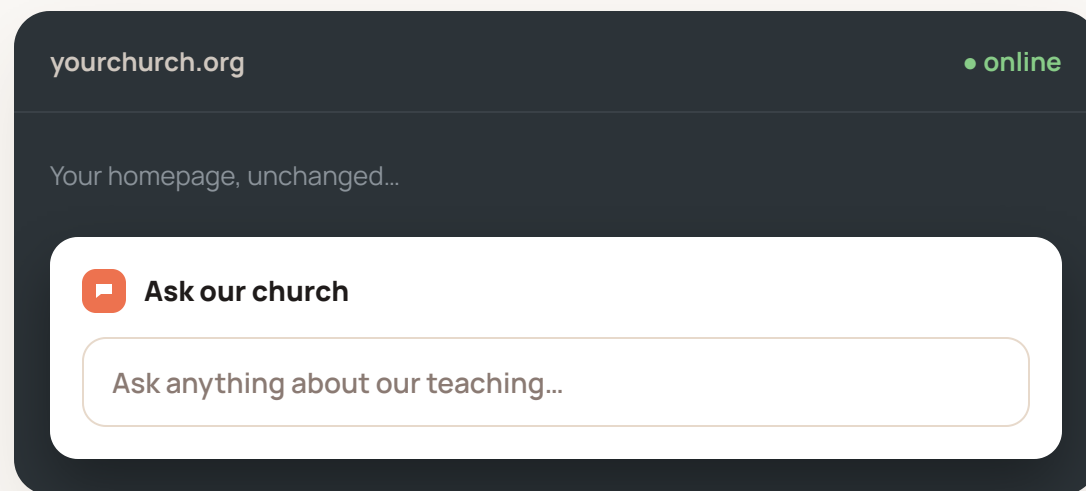

Add your assistant to your existing website with a single embed — no rebuild, no migration. It adopts your church's look and lives on every page.

Two ways to embed.

A launcher button that opens your public page, or a full in-page assistant that answers right where visitors are.

Works with what you run today.

WordPress, Squarespace, Wix, or a custom site — if you can paste a snippet, you can add it.

SET IT AND FORGET IT

Preach on Sunday. Answering by Monday.

Your archive is never "done" — and neither is your assistant. New messages flow in automatically, so what you preached this week is findable next week.

Weekly auto-sync.

New YouTube uploads are picked up, transcribed, and added on their own. No one on staff has to remember.

No manual uploads.

You already publish to YouTube. That's the only place your team has to keep doing what it's doing.

Nothing to maintain.

Hosting, transcription, indexing and Scripture matching all run for you. There's no server to babysit.

● Live

ROOM TO GROW

When one channel isn't the whole story.

Multi-site churches, multiple languages, and content beyond video — the Growth plan opens up when your ministry needs more.

✓ Up to 3 channels

Give each campus, ministry, or language its own indexed channel and its own widget.

✓ Custom branding

Make the public page and widget feel unmistakably like your church.

✓ Documents & website

Add PDFs, DOCX and pages from your site so more than sermons can answer.

✓ Multi-language answers

Meet a diverse congregation where they are, in the language they ask in.

TRUST & SAFETY

Doctrine is sensitive. We treat it that way.

The fastest way to lose a congregation's trust is to put words in the pulpit's mouth. AskOurChurch is built so that never happens.

✓ **Only your content**

Answers are grounded in your church's own teaching — never the open internet.

✓ **Clear AI disclosure**

Members always know they're talking to your church's assistant, not a person.

✓ **It never invents**

No answer, no verse, no clip unless it's actually in your archive. When it can't, it says so.

✓ **You stay in control**

Feature what to surface, and manage what's live from a simple dashboard.

✓ **Public-domain Scripture**

Verse callouts use WEB and KJV — cleanly licensed, quoted accurately.

✓ **A real person checks in**

Someone from our team helps you get set up right during your first week.

WHO BUILT THIS

We built it for our own ministry first — not because we saw a market.

We needed our own teaching to be findable for the work we do. So we built the engine, proved it, and then opened it to other churches. *For Christians, by Christians.*

DeoLink

THE MINISTRY BEHIND IT

A Christian association serving the church since 1975. AskOurChurch exists to serve ministry, not to chase a trend.
